BROOKLYN COLLEGE BADMINTON CLUB

Visual Identity System Fall 2025

Brand History & Strategy

1

In prior social media posts and posters, there was never a consistent design or standard. Through an inspiration of video games and esports content, Sheldon Hung created a game-like virtual theme for the branding of Fall 2025. They took influence from their hobby of game development as they had recreated the Roosevelt Hall Extension 200 Gym during badminton club hours in Roblox, which was heavily used throughout many posts.

Essentially, this brand is ***impactful***, ***fun***, and ***casual***. It intends to visualize thoughts like:

“Badminton is cool! It’s an awesome sport that anyone can get into. Come visit us and start playing, having fun, and socializing today!”
